Customer Reviews, including Product Star Ratings help customers to learn more about the product and decide whether it is the right product for them. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness. Learn more how customers reviews work on Amazon Get full access to Investing For Dummies®, 5th Edition and 60K+ other titles, with free 10-day trial of O'Reilly. There's also live online events, interactive content, certification prep materials, and more. Become a savvy investor with this updated Wall Street Journal bestseller Want to take charge of your financial future? This national bestselling guide has been thoroughly updated to provide you with the latest insights into smart investing, from weighing your investment options (such as stocks, real estate, and small business) to understanding risks and returns, managing your portfolio, and much more. Get time-tested investment advice – expert author Eric Tyson shares his extensive knowledge and reveals how to invest in challenging markets Discover all the fundamentals of investing – explore your investment choices, weigh risks and returns, choose the right investment mix, and protect your assets Navigate Wall Street – understand the financial markets and the Federal Reserve, avoid problematic buying practices, and evaluate investment research Build wealth with stocks, bonds, and mutual funds – use indexes, understand prices, minimize costs, and diversify your investments Get rich with real estate – find the right property, evaluate the market, finance your investments, work with agents, and close the deal Start, buy, or invest in a business – write a business plan, finance your business, and improve profitability Manage college and retirement savings accounts – establish your goals, evaluate your investment options, and tame your taxes Copyright About the Author Author's Acknowledgments Publisher's Acknowledgments Introduction I. Since the last edition, there is plenty of solid, new information on the news, views and resources that stock investors will need to navigate. Showing 1-14 Start your review of Stock Investing For Dummies: 5th Edition Jan 11, 2022 Mateo rated it really liked it This book is super helpful if you want to go beyond ETFs and mutual funds, and choose your own individual stocks. Covering everything from taxes to motif investing, Stock Investing For Dummies is filled with useful info. Corey rated it it was amazing Aug 03, 2022 Gordon marked it as to-read Nov 12, 2021 Yasar Khan marked it as to-read Nov 28, 2021 Samm is currently reading it Mar 11, 2022 Eryk marked it as to-read Apr 25, 2022 The Mind of a Bee Teach Like a Champion 3.0 Performing Under Pressure What listeners say about Stock Investing For Dummies, 5th Edition Average Customer Ratings Overall 4.5 out of 5 stars 4.7 out of 5 stars 5 Stars 133 4 Stars 24 3 Stars 5 2 Stars 3 1 Stars 1 Performance 4.5 out of 5 stars 4.7 out of 5 stars 5 Stars 116 4 Stars 17 3 Stars 7 2 Stars 1 1 Stars 1 Story 4.5 out of 5 stars 4.6 out of 5 stars 5 Stars 102 4 Stars 29 3 Stars 9 2 Stars 3 1 Stars 1 Solid enough book with solid enough info. Quite tedious to listen to, evidently that's a thing now. This audiobook spends more time telling you what sections to reference to find out more, and what information is going to be covered in the following chapters, than it does actually giving us some tangible and implementable information. Props to the author for providing a PDF to follow along with, though this makes listening to 'for further reading on XYZ topic, see chapter ABC' at the end of every paragraph even less necessary than with no accompanying text. I'm a bit of a slow reader and I know very little about stocks, but I listened at 1.4x speed and even that was at times painstakingly slow. Don't regret reading, just regret not asking more ppl for a reference to a useful stocks book it cover most aspects but it is long, it is better to be more to the point Outdated material and personal ideas instead of information. Jumps around and refers to chapters that haven't been read yet or to go back to certain sections. Do not recommend. Does not take you to the moon. Excellent book packed with lots of useful information. However, I am still not sure what "ETF" stands for. The narrator is really good. The material is easy to digest. Enjoyable in every place throughout whole book. No matter how much experience you have in trading, this book will enhance your knowledge. It is an excellent review of the basics and provides wise insight. This books gives every listener a little bit of everything. I recommend skipping to sections that you desire to review rather than listening to the entire book straight through for those who are more advanced with trading. This book comprehensively explains everything in a easy to understand way with funny comments and jokes interwoven. If you don't want to waste your time scrolling through free stuff online this really is perfect for starting investing Although it obviously lacks depth on certain topics, it provides just the depth you need to understand how to invest and what lies ahead for every new investor. It's perfect for people who wants to get a full intro of the stock world. Douglas McWilliams 02-17-21 I feel like I was able to learn and retain a lot of the key information presented in this book. The information was super helpful for someone just learning and the presentation was professional but amusing, not a stuffy textbook vibe. I fully recommend this title if you are interested in learning about stock investing and basics of investing in general. For the beginners, I highly recommend this book. It pretty much covers everything, and breaks it down in a way that's easy to understand, easy to understand and listen to, encourages listeners to take small steps and build up from there Easy to read and understand. The maths is simply explained. Includes Lots of practical tips and advise on what to do as well as what not to do when investing. Offers some good book recommendations should you want to expand your learning, good detail, not pdfs to accompany the calculations. had to remember what i could in my head Damien Watson Ire 08-04-21 It was an easy listen with great structure throughout. The narrator is excellent, tone is clear and makes points well. Natalija Petrova 06-17-21 Super informative and with a lot of useful content. Make sure to make notes, if you're only listening to this. Great pace, very clearly presented, funny at times, would recommend to beginners as a great starting point and resource for future reference. I learnt a HELL of a lot from this book!! Fantastic read, engaging and easy to comprehend. It was great insight into the how to use the different markets and stocks to create wealth. The tax guidelines unfortunately don't apply to us here in Australia but all in all a great listen. worth a listen...got a little tired after the half way line and felt like the rest of the book was just filler. Some gems of info amongst it all though
